

Nanya Technology Named 2018 Thomson Reuters Top 100 Global Technology Leader

Taipei Taiwan – January 29, 2018 – Nanya Technology Corporation (“NTC”, TWSE: 2408) was recognized as a 2018 Top 100 Global Technology Leader by Thomson Reuters. The inaugural program identifies the tech industry’s most operationally sound and financially successful organizations.

The study, the industry’s first holistic assessment of today’s leading tech companies, utilizes a 28-point data-driven algorithm to objectively identify organizations with the fortitude for the future in today’s complex business environment. The patent pending methodology, developed by the Thomson Reuters Boston Innovation Lab, is based on eight principle pillars of performance: Financial, Management and Investor Confidence, Risk and Resilience, Legal Compliance, Innovation, People and Social Responsibility, Environmental Impact, and Reputation. These companies are those whose final scores across the pillars outshine over 5,000 other technology companies around the world.

“We are honored to be named as a Thomson Reuters Top 100 Global Tech Leader,” said Dr. Pei-Ing Lee, President of Nanya. “ Nanya Technology has committed to provide the best quality products and service to our customers; to enhance corporate governance; to create value for shareholders; to take care our employees; to actively participated in social welfare; and to promote green technology and environmental sustainability.”

“Tech companies operate at warp speed confronting competitive, regulatory, legal, financial, supply chain and myriad other business challenges. Oftentimes, their financial success overshadows operational integrity, making it difficult to identify those organizations with true fortitude for future success,” said Alex Paladino, global managing director of the Thomson Reuters Technology Practice Group. “With the Top 100 Global Tech Leaders, we’ve identified the unique data points that embody technology industry leadership in the 21st century; congratulations to the companies that made the list.”

Key Findings among the 2018 Top 100 Global Technology Leaders:

- In addition to being recognized as the first, true valuation of global technology leaders, these organizations outperform the Nasdaq, S&P 500 and MSCI World indices in year-over-year stock price change by 3.91 percent, 4.04 percent and 7.1 percent respectively.
- Outperform these indices across other factors including YOY R&D investment, employee percent change and revenue percent change.
- Forty-five percent are headquartered in the United States; Japan and Taiwan are the next most prolific regions with 13 top 100 tech companies each.
