

2A / Halogen-Related Restriction Substances

A substance at 2A list, is restriction with Halogen-Free homogeneous materials have to restriction and compliance the threshold to provide and control the containing, thresholds, application area and all of the homogeneous materials contained information.

Item	Substance Name
1	Chlorine
2	Bromine
3	When total bromine have test value need add total brominated flame retardants test items
3-1	Tetrabromobisphenol A (TBBPA)
3-2	Hexabromocyclododecane(HBCDD)
3-2	Monomethyl dibromodiphenylmethane (DBBT)
