

## Press Release

### **Nanya Technology received ISO 27001 Information Security Certification**

November 13, 2019 – Nanya Technology has received the ISO/IEC 27001:2013 Information Security Management System certification, issued by Societe Generale de Surveillance S.A. (SGS) Taiwan. A ceremony was held on Nov. 13<sup>th</sup>, David Huang, Senior Director CBE, Taiwan & NEA Region awarded the certification to Dr. Pei-Ing Lee, Nanya Technology President. The scope of the certification includes transferred and self-developed Dynamic Random Access Memory (DRAM) manufacture process and product technology information, as well as the related information flow include related server room maintenance, network service, and the development, operation and maintenance of information systems.

“Nanya Technology’s long-term competitiveness and sustainability come from continuous development and innovation in advanced process and product technology and the protection of valuable assets. These are the foundation of Nanya Technology to provide high value and secured DRAM products and professional services to our global customers. Award by SGS on the ISO 27001 Information Security Management System Certification has demonstrated the determination and importance of our protection of intellectual property, and has promoted a company culture of information security” said Dr. Pei-Ing Lee, president of Nanya Technology Corporation.

"The company introduced information security system, including computer software and hardware data protection, network management, printer services, access control system, and mobile device management; conduct irregular inspections on computers and mobile phone; and other necessary measures to maintain the integrity, confidentiality, and availability of the data. The continuous enhancement of information security measures could avoid confidential technical information leakage, ensure the company’s operation, and obtain customers' and suppliers' trust” said Shin-An Niu, Chief Information Security Officer of Nanya Technology.
